Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Rejections and/or objections as previously applied

Reissue Applications

Claims 45-53 are rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. The present process claims 45-53 broaden the invention because present process claims 45-53 have the word "comprising" in its preamble, this word allows an additional step of further turning the circular contour portion into a square contour portion resulting an invention that has a square contour portion and if practiced would not have infringed the original patent claims since the invention of original claim patent has a circular contour portion. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would not have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

Response to Arguments

Applicant's arguments filed 12/30/05 have been fully considered but they are not persuasive. See below.

In response to the applicant's arguments of pages 2-3 of the response dated 12/30/05, it is submitted that the proposed process invention of the product invention present claims 45-53 and an additional step of further turning the circular contour portion into a square contour portion would not have infringed the original product claims of patent 5,230,747 because the original claimed product invention explicitly requires a circular contour portion whereas the proposed invention requires a square contour portion.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2814

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
